## Find The Perfect Ring Size

## CONFIRM PRINTED PAPER SIZE

Measure the bar on the left with a ruler to ensure accuracy. If the bar does not measure precisely 3 cm , print this page again and set your print scaling to $100 \%$.

## HOW TO USE THIS GUIDE

1. Select a ring that fits the intended finger.
2. Place the ring over the circles below, matching the inside edge of the ring to the circle nearest in size. This measurment refers to the inside diameter of the ring.

3. If the ring falls between two sizes, order the larger size.

## MEASURING YOUR FINGER

Your ring should fit your finger comfortably: snug enough so that it will not fall off, but loose enough to slide over your knuckle.

Finger size changes depending on the time of day and the weather. For best results measure your finger size:

1. At the end of the day and when your fingers are warm (fingers are smaller in the early morning and when cold).
2. Measure finger size 3 to 4 times to eliminate an erroneous reading.

Avoid using string or paper to measure ring size as these materials can stretch or twist, yielding an inaccurate measurement.

## TIPS FOR BUYING THE RING AS A SURPRISE

Ask your significant other's friends or mother if they know her finger size.
Borrow one of your significant other's rings (from the correct finger) and use the ring measurements above to determine its size.

## FREE RESIZING

If the ring does not fit perfectly, we offer one free ring sizing for your AGY Diamonds ring. We're happy to help. Contact AGY Diamond Customer Service.
